FOR PLUCKED INSTRUMENTS

CLASSICAL GUITAR, CONCERT HARP AND IRISH HARP

Teaching Questions [60 Marks]

The purpose of this section is to assess the candidate's knowledge and understanding of the principles of teaching and to assess the candidate's ability to communicate these principles both verbally and through musical demonstration.

The viva voce will be conducted in a relaxed manner with the examiners looking for a practical and personal approach combining intelligent problem solving with the ability to engage and motivate pupils. The principles of successful teaching are not cast in stone and there will rarely be a single 'right' answer to a question posed by the examiners. Candidates should be prepared to act as a teacher to one of the examiners for the purpose of illustrating a teaching principle.

Areas for discussion may include, for example, posture, tone-production, articulation, phrasing, pedal/lever technique, stylistic awareness, practice-methods and lesson-planning.

Candidates will be required to display good knowledge of repertoire suitable for all stages of a pupil's development ranging in ability from beginner to Grade VI. Candidates will also be expected to have knowledge of current teaching materials (tutors, primers, technical studies, etc)

Candidates will be required to answer simple questions on the mechanism, basic care and maintenance of the instrument.

Sample Viva Voce Questions

Please note that the purpose of these questions is to give prospective candidates a general idea of what to expect in the viva voce section. These questions are by no means exhaustive and are only a representative sample.

- How would you conduct the first lesson for, say a six-year old? What areas would you expect to cover?
- Describe and be prepared to demonstrate a good position/posture at the instrument.
- Show how you would teach a good hand position.
- Demonstrate and discuss your approach to developing tone quality.
- Describe and demonstrate essential aspects of articulation and relevance to sound production.
- Demonstrate how you would teach a student to play a harmonic.
- Outline views on relevance of scales and arpeggios and how you teach them.
- Give ideas about rhythmic development and the possible role of ensemble playing.
- Give a brief summary of the major developments in construction of the instrument.
- How would you approach teaching a student to tune the instrument?
- How would you teach changing a string?
- Demonstrate pedal/lever technique and your approach to teaching it. (Harp only)

FOR PLUCKED INSTRUMENTS

CLASICAL GUITAR AND CONCERT HARP

Teaching Questions [60 Marks]

The purpose of this section is to assess the candidate's knowledge and understanding of the principles of teaching and to assess the candidate's ability to communicate these principles both verbally and through musical demonstration.

The viva voce will be conducted in a relaxed manner with the examiners looking for a practical and personal approach combining intelligent problem solving with the ability to engage and motivate pupils. The principles of successful teaching are not cast in stone and there will rarely be a single 'right' answer to a question posed by the examiners. Candidates should be prepared to act as a teacher to one of the examiners for the purpose illustrating a teaching principle.

Areas for discussion may include, for example, posture, tone-production, fingering, articulation, phrasing, stylistic awareness, practice-methods, lesson-planning.

Candidates will be required to display a comprehensive knowledge of repertoire suitable for all stages of a pupil's development ranging in ability from beginner to Senior Certificate. Candidates will also be expected to have wide knowledge of current teaching materials (tutors, primers, technical studies, etc).

Candidates will be required to answer questions on the mechanism, basic care and maintenance of the instrument.

Teaching experience is not a prerequisite for this exam, however a candidate's practical knowledge is invariably greatly enhanced through having had this 'hands on' experience and, where possible, observing lessons.

Sample Viva Voce Questions

Please note that the purpose of these questions is to give prospective candidates a general idea of what to expect in the viva voce section. These questions are by no means exhaustive and are only a representative sample.

- Discuss and demonstrate in detail how you would deal with students at various stages of their growth development.
- Show study and repertoire material suitable for preparation for each grade level and demonstrate some examples.
- Give examples of suitable studies to develop specific techniques.
- What is your approach to the teaching of intervals and chords?
- How would you develop a student's range of expression, for example developing variety in articulation and tone-production?
- Outline a balanced 30 minute programme for a talented student at Grade 8 level.
- What are your priorities in developing a good hand position?
- How do you approach extended techniques for the instrument, such as those required by contemporary composers?
- What techniques and/or practise-methods can be used to develop memorisation?

FOR BOWED INSTRUMENTS

VIOLIN, VIOLA, VIOLONCELLO AND DOUBLE BASS

Teaching Questions [60 Marks]

The purpose of this section is to assess the candidate's knowledge and understanding of the principles of teaching and to assess the candidate's ability to communicate these principles both verbally and through musical demonstration.

The viva voce will be conducted in a relaxed manner with the examiners looking for a practical and personal approach combining intelligent problem solving with the ability to engage and motivate pupils. The principles of successful teaching are not cast in stone and there will rarely be a single 'right' answer to a question posed by the examiners. Candidates should be prepared to act as a teacher to one of the examiners for the purpose illustrating a teaching principle.

Areas for discussion may include, for example, intonation; posture; bowing variants; use of position and their introduction; shifting; vibrato; phrasing; sound production; stylistic considerations; practice methods; lessons structure.

Candidates will be required to display a comprehensive knowledge of repertoire suitable for all stages of a pupil's development ranging in ability from beginner to Senior Certificate. Candidates will also be expected to have wide knowledge of current teaching materials (tutors, primers, technical studies, etc).

Candidates will be required to answer questions on the nature and care of their instrument and to explain, as to a pupil, their functions in the production of sound (pitch, volume, quality, duration etc). Candidates may also be asked questions on the basic maintenance of the instrument.

Teaching experience is not a prerequisite for this exam, however a candidate's practical knowledge is invariably greatly enhanced through having had this 'hands on' experience and, where possible, observing lessons.

Sample Viva Voce Questions

Please note that the purpose of these questions is to give prospective candidates a general idea of what to expect in the viva voce section. These questions are by no means exhaustive and are only a representative sample.

LRIAM candidates can also be asked questions similar to those asked of ARIAM candidates. Please consult the Sample Viva Voce Questions for ARIAM. (See Page 17 for an indication of the possible content of such questions).

- Discuss and demonstrate in detail how you would deal with students at various stages of their growth development.
- Show study and repertoire material suitable for preparation for each grade level and demonstrate some examples.
- Give examples of suitable studies to develop specific techniques such as shifting; double-stopping; martele bowing; string crossing and legato.
- What are your views on phrasing and its importance?

- Discuss stylistic differences between Kabalevsky and Mozart and demonstrate some of them.
- Outline a balanced 30 minute programme for a talented student at Grade 8 level.
- Discuss the most important aspects of how to talk to a student and possible pitfalls in this regard.
- What approach do you take in developing good aural awareness and at the same time building self-confidence?
- What are the difficulties often encountered in left thumb use and how would you deal with them?
- What are your priorities in developing good bowing?
- What would be your first choice of concertos for your instrument and why?
