Dear Colleagues

The 2019 Percussion syllabus is unchanged from the syllabus of 2015-2018, which had been extensively revised. For ease of access, we have separated percussion out from wind and brass, and we hope you find this easier to use.

The syllabus contains a cumulative course of study along with a sense of enjoyment. It has been constructed by top professionals in the RIAM, contains a range of repertoire, of different styles, to cater to varied musical tastes from the very young to the advanced student.

The use of grade exams offers the student an opportunity to build on performance skills which in turn will generate greater confidence, as well as providing an assessment of the student’s musical development.

We hope to see you enjoying your music in the years to come with the RIAM.

Very best wishes,

Brendan Breslin

Useful tips to help prepare for your Examination

Each area of the examination serves a purpose, and plays an important role in developing a well rounded musician. Listed below are a few useful tips, aimed at helping the teacher/candidate to understand the reasons behind each area of the examination, and how to improve on those areas.

Pieces

The first mission is to choose pieces to suit each candidate, and both student and teacher should have input into this task. From the teacher’s perspective it is important to choose pieces that will develop the technique of the student but will also show off the students’ ability to their best advantage. From the student’s perspective it is important to choose pieces that they like, as this will encourage more dedication at practice time!

The early stages of learning a piece are hugely important, and while note learning can be a slow and arduous task it is essential to learn the correct notes and rhythm from the very start. Slow and careful practice is strongly encouraged to begin, gradually building up the tempo over time. Once the basics are in place, the musical detail can be introduced little by little. It should be noted that some music editions do not offer much detail by way of dynamic markings or phrase marks, but all music should have shape and colour to enhance the character of the work. Always look at the composer and title of the piece – this will always give an indication of how the piece should sound. Listening to a recording of the pieces will also inspire musical ideas!

It is important to practise playing the pieces through without stopping – it is not necessary to restart the piece because of a small slip, and this can become a bad habit – always try to keep going! It is a very good idea to play through the pieces for family or friends prior to the examination, as this can really help to build confidence.

For instrumentalists and singers it is essential to practice with the accompanist, to be familiar with the accompaniment part and all the entries.

Scales

Quite often students tend to underestimate the benefits of learning scales, and do not enjoy practising them, but there are many reasons for practising scales, and huge advantages, for example:

- They help to develop a sense of key
- They help to develop rhythmic patterns
- For all instrumentalists they help to develop finger fluency and co-ordination
- For string players they help to develop bow control and key patterns
- For singers and wind players they help to develop breath support and phrasing

Regular practice is advised – this does not mean that every scale has to be practised every day - better to concentrate on a few scales at a time (select different keys each time you practise). The examiner will be listening out for a fluent pace with clear rhythmic patterns, good tone and articulation (where appropriate) and finger clarity throughout.
Sight-Reading

Students tend to have a dread of sight-reading - an unfamiliar piece of music is placed on the music stand and almost instantly the room is filled with a sense of panic! Like all other areas of musical learning, this skill can be easily improved, and will help to develop a quick understanding of rhythmic motifs, note patterns, key signatures, accidentals, and ultimately will be an aid to faster learning.

To be successful at sight-reading does not necessarily mean a note-perfect account of a piece – the aim of sight-reading is to give “an impression” of how the piece should sound. With this in mind, the examiner will be listening for a sense of continuity. A cautious reading, where the candidate pauses to ponder over the next notes can only result in a hesitant attempt, with no real sense of how the notes fit into phrases, or how the phrases make up a piece of music. Always look ahead and keep the piece moving along with a steady pulse for best results. Again, this area can only improve with practice – a few bars every day will make all the difference!

The Let’s Get Reading sight-reading books for piano are written by Jean Archibald and Marie Moran and offer a step-by-step guide to learning how to sight-read well. These books are available from Preliminary level to Senior Certificate, and are extremely useful books for both teachers and students as a guide to successful sight-reading. They also include sample sight-reading tests at the back of each book.

For other instrumentalists, we are working on sample sight-reading tests which will be available on our website www.riam.ie – this is still work in progress but we hope to have some of the main instruments completed in the near future.

Theory

Knowledge and understanding of theory will equip any candidate with the necessary tools to display a well thought-out performance of their pieces. Notes, rests, rhythmic values, time signatures and key signatures provide the “nuts and bolts” of basic learning; expression markings allow us to lift the notes off the page and create colour and shape, adding character and style to the music. If you do not understand the meaning of the theoretical details and expression markings, this makes it rather difficult to portray in performance – this area is worth five marks in the examination.

The publication Music Workout by Jean Archibald and Bernadette Marmion is a series of theory workbooks based on the syllabus of Theory examinations. Each workout (Preparatory to Grade 8) includes detailed explanatory notes. This material also provides useful preparation for the ‘reading’ elements of the Aural Tests programme (practical music examinations).

The Theory Requirements listed on pages 14 and 15 should be studied carefully for each grade, as there are some changes and advancements to this new syllabus. For example, candidates will be encouraged to describe the character of the pieces performed (Grades II and III), and will be asked to describe the style of the pieces performed (Grades IV and V).
Aural Tests
The key to developing a strong sense of musicianship is through listening. Having an awareness of melodic shape, rhythmic pattern and musical phrasing can undoubtedly lead to a higher level of performance. With this in mind, the function of the Aural Tests is to establish a stronger connection between listening and performing, to help candidates build on all aspects of their musical learning.

These tests have been carefully constructed, to ensure a gradual development in ear training from the earliest grades right through to Senior Certificate level. Up to Grade V, the Aural Tests focus on four main areas: Listening, Memory, Rhythm and Sight-Singing. From Grade VI onwards the requirements for Aural and Theory are combined. The full details for each grade are listed from pages 10 to 13 in the syllabus.

For Sight-Singing, it is important to note that candidates are not assessed on the quality of their voice. The aim of this test is to develop recognition of melodic pattern, shape, and intervals. The RIAM Music Workout series contain many sight-singing and clapping exercises which help to develop musicianship alongside theoretical knowledge.

For candidates wishing to undertake the Senior Certificate, we have introduced an added requirement: “candidates will be expected to demonstrate an understanding of the style of the pieces performed; to discuss some of the technical demands presented in the chosen pieces, and their approach to overcoming these difficulties”.

The aim of this exercise is to encourage candidates to reflect on the musical styles, form and technical aspects of the pieces performed at this advanced level of study. Consequently, the allocation of marks will be altered in this area:
Combined Aural/Theoretical tests: a maximum of 10 marks
Viva Voce: a maximum of 5 marks
Full details are available on page 19 of the syllabus.

The day of the Examination
Even professional musicians will admit to suffering from nerves – it is only natural that candidates (and quite often parents too!) feel anxious prior to their examination. Every examiner has experienced nerves and can empathise with those feelings of tension and worry – they will do their best to create a friendly atmosphere on the day, and ultimately get the best possible performance from each candidate. Listed below are a few useful tips, to help things run as smoothly as possible on the day:

At home...
Be sure to do a warm-up at home. This can be a good way to calm any nerves and focus the concentration. Warm-up facilities are not provided at the examination centres. Before leaving home, be sure to have everything you need: instrument, music stand (where appropriate), and music (photocopies may only be used in the examination room when the original music is also present!)
Aim to arrive at the examination centre ten minutes early – this will give you time to take your instrument out of its case, have your music ready and take your coat off before entering the examination room. Use the extra minutes before the examination to settle your nerves. Try to think positively, and remember that the examiner is on your side and wants you to do a good job. If possible, try not to arrive too far in advance of the examination call time – waiting around can be counterproductive!

In the examination room...
Make sure that you are comfortable before you begin check that the stool or music stand is at the appropriate height for you, and do not be afraid to ask the examiner for help if you wish to make any adjustments.

For instrumentalists, tune your instrument prior to entering the room, but also check your tuning with the piano before you start to play. For wind/brass players, the examiner will be happy to let you blow a few notes to clear the instrument prior to tuning with the piano.

You will be given the option of starting with scales or pieces, choose whatever suits you best. (For piano examinations, choosing to play scales first can be a good way of getting used to an instrument that is unfamiliar to you!) Where possible the examiner will listen to all three pieces in their entirety, but do not worry if you are stopped during a piece – this is not a reflection on your performance.

Timing allocated for each grade
Our examiners are trained to work quickly and efficiently. While taking the time to place each candidate at ease at the start of the examination, it is also the responsibility of the examiner to adhere to the allocated schedule as much as possible. The following is an outline of the time allocated for each examination, though it should be noted that two extra minutes are added on for string players and one extra minute is added on for wind/brass players to allow for tuning.

Candidates with Special Needs are also allocated extra time.

The examination notification sent to candidates/applicants in the post will indicate a Call Time – 10 minutes prior to the examination time. Candidates should aim to be ready to play from the Call Time onwards. Our examiners do their best to adhere to the examining timetable, and aim to ensure that examinations run on time. To a large degree, the pace of the examination is set by the candidate – if they choose to play their scales and pieces at a rather slow pace this can lengthen the overall examination time, candidates suffering from extreme nerves can also take longer to get settled. With this in mind, we cannot guarantee that examinations will run on schedule – we can only guarantee that every candidate will be given every opportunity to do their best on the day.
Candidates with Special Needs
The term “Special Needs” covers an increasingly broad area, which the RIAM endeavours to accommodate in every possible way. Naturally, every candidate has different needs, therefore each person is given independent consideration.

When candidates are entered under Special Needs, the following are some of the provisions available to facilitate individual requirements:

- extra time allocation for the examination
- enlarged or Braille sight-reading for visually impaired candidates
- specific order in which the candidate wishes to take the different areas of the examination
- parent/carer to be present in the examination room
- the RIAM will also endeavour to accommodate other provisions specific to individual needs

A Special Needs entry form must be completed and submitted at the time of application in order to benefit from any of the required provisions. The form is available from the RIAM Exams Office, or may be downloaded from www.riam.ie It should also be noted that the RIAM does not offer any dispensation in the marking – every candidate is assessed on the same basis.
Introduction

Dear Colleagues

The building of a syllabus is a very important and difficult job. Care must be taken that the syllabus contains a cumulative course of study along with a sense of enjoyment. In this syllabus which has been constructed by top professionals in the RIAM, there are many new innovations.

Having performed for many years as both Principal Flute with the National Symphony Orchestra and laterally as a soloist, the need to perform is an integral part of my life. The use of grade exams offers the student an opportunity to build on performance skills which in turn will generate greater confidence, as well as providing an assessment of the student’s musical development.

In the spirit of open learning, I look forward to meeting some of you during RIAM workshops that are planned for the future and may I remind you of new online resources available through our website.

Very best wishes

Aim of the Recital Certificate
A polished presentation is expected for the Recital Certificate Programme. Unlike the Grade examinations, there is a much stronger emphasis on the candidates’ sense of performance and ability to display a technically secure, well-rounded musical programme. This programme is open to all disciplines contained within the current syllabus, including duet, chamber music and ensemble groups.

The aim is to encourage candidates to understand the importance of:
• Choosing a suitable and creative programme
• Presenting a written programme of their chosen pieces
• Sense of communication with the audience / listener
• Pacing of the recital
• overall delivery of a polished programme with sense of performance

Categories
The Recital Certificate can be taken at three levels: Junior, Intermediate and Advanced. At each level the Pass Mark is 70, indicating that the required standard of performance is higher than expected at a grade exam. For each recital candidates will receive a result sheet as assessment of their performance, and a certificate and medal will be awarded to successful performers.

Candidates who receive an overall mark between 70-79 will be awarded a Bronze medal. Candidates who receive an overall mark between 80-89 will be awarded a Silver medal. Candidates who receive an overall mark of 90 or above will be awarded a Gold Medal.

Junior Recital Certificate
Programme should equate to RIAM Grade II – III standard and should last between 5 – 10 minutes. At least two pieces (or movements of pieces) must be performed.

Intermediate Recital Certificate
Programme should equate to RIAM Grade V – VI standard and should last between 12 – 15 minutes. At least three pieces (or movements of pieces) must be performed.

Advanced Recital Certificate
Programme should equate to RIAM Grade VIII or higher standard and should last between 20 – 25 minutes. At least three pieces (or movements of pieces) must be performed.

Choosing A Programme
Exploring the repertoire for a given instrument and finding out areas of music that suit and appeal to each student are very important aspects of musical development. The following are some helpful hints when choosing a suitable programme:
• Candidates should aim to choose a programme that will display their imagination, technical strengths and musical preferences.
• While candidates may wish to include some material from the Local Centre Syllabus, they are strongly encouraged to explore and include a wider range of repertoire in their programme presentation.

• Candidates will be assessed on how well the performance engages the listener. The programme should have musical contrast; for example variety of tempi, moods and/or pieces from different eras. (It is not compulsory to choose pieces from different eras but this can be a good way of creating contrast.)

• Try to choose music that is most appealing to the candidate as this will help create a positive experience for both listener and performer. Examiners will assess the Overall Impression and Choice of Programme. The candidate should enjoy performing the chosen pieces, so that this is communicated to the audience.

• Candidates may wish to consider music from outside of the classical music genre such as jazz or Irish traditional music. If a jazz piece is featured in the chosen programme, the performer may like to include an improvisation.

• Good quality arrangements from film or popular music may be used.

• Candidates may wish to perform one of their own compositions.

• Over-use of repeats should be avoided; however Da Capo and Dal Segno should always be played.

• Many instruments have good compilation albums available and these can be a useful source of repertoire.

• Browsing in libraries or in music shops is a useful tool for all musicians, and looking for a programme for the Recital Certificate will help to develop this useful habit.

• Simplified editions of classical repertoire should be avoided as candidates are encouraged to perform the composer’s original text.

Grading of Pieces
In choosing a programme, it is important to keep in mind the required standard. Where a candidate chooses a piece that is technically/musically easy for the suggested grade then the programme should be balanced with pieces which are more difficult than the suggested grade.

On the Day of the Exam
Candidates must present a copy of the music to the examiner. Marks will be deducted for failure to do so. Candidates must present a written programme to the examiner. Marks will be deducted for failure to do so. The performer may also choose to announce each piece, though this is not a requirement. Unlike a grade examination, the performer is in control of the pacing of the examination and should commence playing at their own ease and continue their programme without comment from the examiner. The original music for each piece must be present in the examination room, however the candidate may choose to photocopy extra pages to avoid awkward page-turns. The examiner will not be in a position to assist with page-turning during the recital, but it is acceptable for candidates to invite their own page-turner to assist.

Marking of Recital Certificate Programmes
The Recital Certificate is marked under three areas: Technical Ability, Interpretation and Overall Impression & Choice of Programme.
Technical Ability (30%)
Candidates will be assessed on their technical ability to play each piece. Examiners will be listening for good clarity and accuracy in the fingerwork. An ability to produce a good tone is also assessed here. For pianists, pedalling will be assessed. Where appropriate, intonation will be expected to be secure. For vocalists, diction and pronunciation will be commented and marked on.

Interpretation (30%)
Candidates general musicality and ability to portray form and phrasing will be assessed in this section. Other aspects of this mark include dynamics, contrast in articulation and an ability to set the mood of each piece will be taken into consideration. Stylistically appropriate playing will be rewarded.

Overall Impression & Choice of Programme (40%)
The overall presentation (including the written programme) will be assessed here. The timing of the performance is an important aspect of this mark – a programme that is considerably under the minimum time will be penalised. The ability to communicate and engage with the listener is assessed. The suitability of the programme to the candidate is taken into consideration by the examiner – whether the performer showed off their best abilities, whether moods and styles were captured and if there was a sense of flair and originality. Communication between performer and accompanist plays an important role and will be assessed. Facial expression, especially for vocalists, is an important aspect of the overall impression.

Candidates will be penalised for performing a programme which is shorter than the minimum permitted length, and they could be asked to discontinue a performance should they be exceeding the maximum permitted time.

The duration of the submitted programme will be marked under the section entitled Overall Impression & Choice of Programme.

Candidates are required to present a performance list and original music must be provided for the examiner.

The Recital Programme will be marked as follows:

(a) Technical Ability 30%
(b) Interpretation 30%
(c) Overall Impression & Choice of Programme 40%

Pass Mark 70%
PERCUSSION

No marks will be awarded for incorrect music presented at examination. An original publication must be present for each examination. Candidates using photocopies of music will be disqualified.

Please note that the editions cited here are only suggestions; other authoritative editions may be used by candidates if so desired.

For Aural Requirements and Theoretical Questions please see pages 8 to 17. Candidates must present a copy of their pieces for the examiner.

SNARE DRUM

The new category of Grades I to VIII in Snare Drum follows in part the studies in the Snare Drum section of the Percussion syllabus Grade I to VIII. In the Percussion syllabus the snare drum section basically follows a progression of classically-based studies with the 26 standard percussion rudiments gradually introduced as technical exercises.

In the new Snare Drum syllabus these ‘classical studies’ are basically retained (and extended) and a second category of rudimental studies (solos) are added.

In addition, the snare drum rudiments are introduced more quickly to run concurrently with these rudimental solos and new more advanced ‘hybrid’ and PAS rudiments are introduced together with the 26 standard rudiments.
